WEDNESDAY, JANUARY 18, 1922.

Why is it that so many people, dis-
regarding the rights and safety of
others, will throw orange or banana
peels rights down upon the sidewalk?
When somebody slips and falls, suf-
fering severe injury, who is benefited?
Why manifest so little thought of oth-
ers? If your own mother were to be
the victim of your carelessness, you
would be sorry indeed; why not re-
member that there are other mothers,
and to have one of them suffer a
broken arm would work great ill to
your neighbor. True, the habit of
throwing the peel upon the sidewalk is
not the result of intent to injure any-
body. But we should seek to help, not
hurt others.

It is an easy matter to abuse prohibi-
tion, brand it a failure, and rave
over the undemocratic, tyrannical
thing that prohibits a man from exer-
cising his own mind. But nobody save
a whiskey soak or an inhabitant of
the city wherein the habit of strong
drink has long prevailed, can deny
that prohibition is accomplishing
much. The police courts prove it.
The fact that a drunken man is seldom
seen upon the streets of the towns
and cities is proof of its value. Those
who keep hammering against prohibi-
tion are doing more to thwart the
law than all the bootlegs in the coun-
try. The bootleg waxes strong under
the spur of the adverse criticisms
hurled at prohibition. But, how as
may the critics of prohibition, it has
come, and come to stay. With every
passing year the movement will gather
strength.

THE FORD MUSCLE SHOALS
OFFER.(Furnished by The National Fertilizer
Association).

An analysis of the effect on the tax-
payers' pocket book of the acceptance by
the government of Henry Ford's
offer for the Muscle Shoals nitrate and
power plants is being circulated by the
National Fertilizer Association. The
analysis is put in the form of a chart,
showing that over a period of 100
years, the term of the proposal leases
on the basis of the calculation which
Mr. Ford himself uses, the taxpayers
would pay as a subsidy to Mr. Ford
\$984,935,000.

Under the Ford offer for a 100-year
lease of the dam and power plant the
government must complete the water-
power development with taxpayers' money.
Mr. Ford proposes to make
two kinds of payments—interest and
amortization.

The interest payments are a partial
reimbursement to the government for
the interest which taxpayers must
pay on the money invested in the
water power. But Mr. Ford's interest
payments are even smaller than this
but amount in total over the 100 years
to \$161,040,000. The government
however, must pay interest on \$17-
600,000 new money invested, which a
4 per cent would amount to \$220,000
per year. This, as will readily be seen,
creates a deficit of \$600,000 or more
every year.

Amortization payments under Mr.
Ford's plan (\$45,577 per year) are to
be compounded at 4 per cent so that
a fund of \$48,000,000 may in this way
be created by the end of the 100-year
lease. Since Mr. Ford's amortization
fund is compounded at 4 per cent for
the period of the lease, the govern-
ment's annual deficit must be similarly
compounded in order to determine the
final result and will grow by the end
of the lease to the enormous sum of
\$1,022,935,000.

To apply against this enormous sum
we have only Mr. Ford's \$43,000,000
amortization fund (his interest pay-
ments having been already deducted
to arrive at the deficit). This leaves
at the end of 100 years a net loss to
the taxpayers of \$984,935,000.

This \$984,935,000 is the subsidy
which Mr. Ford will receive over a
period of 100 years from the taxpay-
ers if the government accepts his
Muscle Shoals offer.

The National Fertilizer Association
does not oppose private operation of
the Muscle Shoals nitrate plant unless
it involves a subsidy by the govern-
ment; but it does oppose either govern-
ment or government subsidized oper-
ation in competition with the exist-
ing fertilizer industry.

We give publicity to the above for
several reasons: We desire to be fair;
every argument is entitled to a hear-
ing; the question at issue is a vital,
far-reaching one.

But it must be remembered: This
is the fertilizer association of Amer-
ica speaking; they are directly inter-
ested, as much or more so than Henry
Ford. When a cause is espoused,
thousands of dollars spent in advanc-
ing it and great determination dis-
played in the support of that cause,

one naturally desires to know who
and what is back of the propaganda.
This much is certainly true: The fer-
tilizer trust is vitally interested. The
Ford plan contemplates, primarily,
the production of fertilizer in vast
quantities and at low price. If it does
what Henry Ford thinks it will, it will
turn billions, not millions, but billion
of dollars from the pockets of the fer-
tilizer manufacturers into the pocket
of the farmers of the United States.
Whether Mr. Ford's plan is feasible,
or not, we do not know, but Edison
the wizard-chemist, the greatest in
the world, says it is. It will be diffi-
cult to go behind Mr. Edison's find-
ings in the matter.

We have not the statistics to use as
an estimate, but suppose there are
these United States 10,000,000 farm-
ers. Suppose this production of fer-
tilizer proposed by Ford should effect
a saving of \$10 for each farmer in
the United States annually? That
would be \$100,000,000 saved annually.
In 100 years, counting no interest, it
would be \$10,000,000,000 (ten billion
dollars). Interest added for 100
years would increase the sum man-
y times over. Besides, the govern-
ment is greatly concerned about the
agricultural development of the
country. The agricultural department
is making every effort to bring into
vogue better methods, larger yield,
better soil improvement. If Henry
Ford's plans are to result as he be-
lieves, the untold wealth to the nation
agriculturally speaking, is amazing.
Anyway, we say, let Ford have Mus-
cle Shoals under his proposed lease.

Runaway Airplane
Strikes Skaters

Red Bakt, N. J., Jan. 15.—A run-
away airplane, starting from the ice,
rashed into a crowd of several hun-
dred skaters on the Shrewsbury river
today, killed Mrs. Anna C. E.
Houehnan, severed the right arm of
her brother, Lawrence Conley, of
Middleton, and slightly injured many
others.

Thousands of persons, gathered
along the river banks to witness ice
boat and skating races, saw the acci-
dent.

The airplane, piloted by James
Jasey of Shrewsbury, former army
aviator, maneuvered over the heads
of the skaters for several hours, then
descended to the ice. The crowd
gathered around the machine, and
evidently fearing that the ice would
give way, suggested that Casey leave.

He assented, turned the propeller
and jumped for the cockpit. The ma-
chine swerved and started toward the
crowd. Mrs. Houehnan with her hus-
band, brother and two children, stood
in its path. Conley attempted to
drag her to safety, but both were
caught in the propeller blades.
Mrs. Houehnan was killed instant-
ly. Conley's arm was severed at the
shoulder and his clothing torn to
shreds. Other persons were struck
by the wings and sent sprawling on
the ice, but their injuries were super-
ficial.

Kelton, Jan. 16.—Mrs. J. W. Smith
has as her guests her brother, Mr.
W. Gordon of Shelby, Miss., and
her niece, Miss Katherine Gordon, of
Tomb, Miss.

The W. M. U. of Mt. Joy Baptist
church begins the "week of prayer"
Wednesday. Every one is invited to
attend these services.

Several from here have been to hear
Tilly Sunday. All seem to like him.
Every one should take advantage of
this opportunity to hear him, for he
may never come this close again.

Notice

Mr. W. D. Wood, the county agent,
and I will hold meetings to discuss the
boll weevil situation at the following
school houses at the hours and dates
given:

Also, the organization of a county
branch of the State Co-operative Cotton
Marketing Association will be dis-
cussed at this meeting:

We earnestly urge all farmers in
these communities to be at these meet-
ings. Come prompt at the hour
named as the meetings must be held
on time. We hope to give information
that will be of service to farmers in
meeting and defeating this much-
dreaded enemy.

Internal Revenue Collector
Makes Statement

The following statement is issued
by Acting Collector of Internal Re-
venue W. R. Bradley, the District of
South Carolina, Columbia, South Car-
olina.

Forms 1040-a revised and simpli-
fied, for filing individual returns of
income for the calendar year 1921 of
\$5,000 and less will be available Wed-
nesday, January 18, 1922, at the office
of Collector of Internal Revenue, Col-
umbia, S. C. A copy will be mailed
to taxpayers who last year filed a re-
turn, but failure to receive the form
does not relieve a taxpayer of his
obligation to file a return on the time
—on or before March 15, 1922. The
form has been reduced from six to
four pages, two of which are devoted
to instructions which should be care-
fully read by the taxpayer before fill-
ing in the blanks. A study of these
instructions will greatly lessen diffi-
culties heretofore encountered in cor-
rectly making out the return.

On page 1, under head of "Income"
are spaces for reporting the following
items: salaries, wages, commissions,
etc.; income from partnerships, fidu-
ciaries, etc.; rents and royalties; profit
(or loss) from business or profession;
profit (or loss) from sale of real es-
tate; profit (or loss) from sale of
stocks, bonds, etc., and other income.
Beneath are spaces for entering de-
ductions; such as interest and taxes
paid during the year; losses by fire,
storm, shipwreck, or other casualty
or by theft, contributions, bad debts,
etc.

On page 2 are spaces for entering
explanations of the various items; i. e.,
the total amount of income from busi-
ness or profession, with description
("grocery," "retail clothing," "drug
store," "laundry," "doctor," "lawyer,"
"farmer") from rents, and royalties,
sale of property, etc.

Returns are required of every sin-
gle person and every married person
not living with husband or wife, whose
net income for 1921 was \$1,000 or
more, and of every married person liv-
ing with husband or wife whose net
income was \$2,000 or more. If the
combined net income of husband, wife
and dependent minor children equalled
or exceeded \$2,000, or if the combined
gross income of husband, wife and de-
pendent minor children equalled or ex-
ceeded \$5,000, all such income must be
reported on a joint return or in sepa-
rate returns of husband and wife. If
single and the net income including
that of dependent minors, if any, equal-
led or exceeded \$1,000, or if the gross
income equalled or exceeded \$5,000, a
return must be filed. A minor, how-
ever, having a net income of \$1,000 or

\$2,000, according to marital status or
a gross income of \$5,000, must file a
return. The requirements to file a re-
turn of gross income, regardless of
the amount of net income, upon which
the tax is assessed is a new provision.
"Net income" is gross income less
certain deductions which are explained
on the form.

Under each of the above conditions,
a return must be filed even though no
tax is due. The exemptions are \$1,000
for single persons and married per-
sons not living with husband or wife,
\$2,500 for married persons living with
husband or wife whose net income for
1921 was \$5,000 or less and \$2,000 for
such persons whose net income was
more than \$5,000. The exemption for
dependents "a person under 18 years
of age or mentally or physically defect-
ive" has been increased from \$200 to
\$400.

A head of a family—a person who
actually supports in one household one
or more persons closely related to him
(or her) by blood, marriage, or adop-
tion, is granted the same exemptions
allowed a married person.

The normal tax rates are unchang-
ed, 4 per cent on the first \$4,000 of
net income above the exemptions and
8 per cent on the remaining net in-
come. The tax this year, as last, may
be paid in full at the time of filing the
return, or in four equal install-
ments, due on or before March 15,
June 15, September 15, and December
15.

Heavy penalties are provided by the
new revenue act for failure to file a
return and pay the tax on time.

Announcement will be made through
the press of the date of release of
Forms 1040 for filing individual re-
turn of income of more than \$5,000.

Student Removed for
Editing Revolutionary Paper

Oxford, Eng., Jan. 14.—Arthur F.
Reade, a 20-year-old student of Wor-
cester college, has been "sent down,"
otherwise removed, from Oxford uni-
versity by the vice chancellor and
proctors for editing a revolutionary
newspaper.

Young Reade came to Oxford from
Eton, the most fashionable public
school in England last year and set
forth is advanced views in "Free Ox-
ford, a Communist Journal of Youth,"
an inter-university paper.

Charles H. Gray, his associate edi-
tor, has been "sent down" for two
terms.

A general young giant, Reade pub-
licly proclaims his admiration for Le-
nine and his faith in the dictatorship
of the proletariat. He gloried in the
admission that his paper preached se-
dition. One of the offending para-
graphs stated that "the bourgeoisie
would be offered the alternative of
surrender or extermination," and that
"the destruction of a few would ter-
rorize the rest into surrender."

The Oxford university authorities
believe that Bolshevik propaganda
among the English youth is becoming
a menace.

voys tried recently to deliver an ad-
